

KOYOOE TUKADU:
PYRAMID LAKE PAIUTE KIT

◆ WE ARE ALL PEOPLE OF THIS EARTH

Dead Ox Canyon is the battleground for the Pyramid Lake Wars. The wars began with an incident at Williams Station involving the kidnapping of Paiute women and resulting in the death of the Williams brothers. An army was gathered in an attempt to retaliate for these murders. With the first army defeated, a larger army was organized to initiate the second and final battle. As a result of this battle the government began to intervene and spent many years trying to find a solution that was suitable for both parties.
